

# San Luis Obispo County Regional Airport

## Runway Rehabilitation Construction Schedule - Summer 2021

Below is the planned monthly schedule for construction at the airport. All airport tenants, airlines, rental car companies should adjust and plan your schedule accordingly.

 9-hour nightly closures, 9PM-6AM
  12-hour nightly closures, 6PM-6AM
  48-hour airport closures, 7AM-7AM

The project is planned to be complete at the end of the schedule above. If for some reason work is not complete we will conduct nightly closures in between regular airline scheduled flights so as not to impact flight schedules any further.
